Together on the Journey to Health

The Health Department is closed!! I need some information on how to make an appointment for some glasses.

PABLO

Oh Dear! Why don't you call the tribe's Health Department's HELP-LINE to get some information? I called the other night and they told me who to call during work hours.

MOCHIK

I just called the HELP-LINE and they gave me some information and a number to call to make an appointment.

The HELP-LINE is an answering service to provide information to the community on PYT's Health Services that are available and how to access these services.

The HELP-LINE is not for emergency calls.

If there is an emergency call 911 for help!
